RCI Engineering Supports Wisconsin FFA
Mayville, WI
3 December 2014

RCI Engineering has generously made a donation to the Wisconsin FFA Foundation that will benefit over 19,000 Wisconsin FFA student members across the state. RCI's donation will help support the Agricultural Mechanics Career Development Event.

Wisconsin FFA is thriving thanks to all generous donors, including RCI. With membership at the highest level in 30 years, the increased financial support through the Wisconsin FFA Foundation has enabled programming growth to accommodate more members, program additions and enhancements, and maintained affordability for member participation. The Foundation celebrated a milestone of achieving over \$500,000 in support funds raised last year, which is an important achievement as it provides a platform for future organizational growth.

The growth of Wisconsin FFA is timely with regards to the increased opportunities for youth to pursue respectable careers as part of the multi-faceted farm to fork system. The organization equips its members with all the tools necessary for success – technical knowledge, transferrable work skills, leadership and character traits and practical experiences.

The Wisconsin FFA Foundation, a 501(c)(3) organization, unites individuals, organizations and companies who share a common interest in the advancement of agriculture and community leadership through FFA. You can support today's FFA members by supporting the programs that have been core tenets of the FFA: proficiency awards, career development events, state FFA degrees, sectional leadership workshops, scholarships, chapter awards, agri-science fair, state FFA convention and state officer support. Learn more about the Wisconsin FFA Foundation and sponsorship opportunities by visiting www.wisconsinffaoundation.org.

RCI Engineering was formed in 2004 with the sole purpose of providing engineering and manufacturing services for the specialized agricultural equipment industry. Since that time, the company has experienced tremendous growth in product offering and size, and continues to grow. RCI is a short-line manufacturer of Hay and Forage Equipment as well as Research Plot Equipment. Learn more about RCI at www.RCIengineering.com.
