## **RCI Engineering Employment Opportunity**

RCI Engineering is a manufacturer of agricultural and off-road equipment, specializing in product development, testing, and manufacturing of products as an OEM and as a supplier to other companies.

Three areas of focus include the following:

1. Complete engineering services for agricultural and off-road equipment manufacturers
2. Research Plot Harvesters for hay, forage, and biomass crops
3. Attachments and Implements for Commercial Hay and Forage Harvesting

### **Mechanical Design Engineer**

RCI is looking for a Mechanical Design Engineer to join the team in designing specialized agricultural equipment. Candidate must be proficient in 3D modeling and have a general knowledge of drawing standards.

Responsibilities:

- Design equipment in a small team environment
- Provide support to production as issues arise
- Organize BOM's and related information for complete product lines

Requirements:

- Mechanical or Agricultural Engineering degree required
- MS and/or PE preferred, but not required
- Must be proficient with 3D modeling software
- Knowledge and efficiency in SolidWorks preferred, but not required
- Knowledge of general MIG welding practices required
- Ability to create weldment drawings required
- General understanding of agricultural equipment preferred

Benefits

- RCI offers Health, Dental, Vision and Life Insurance
- RCI includes Paid Vacations and Profit Sharing
- Wage / salary based on experience

Additional Information

- This position is flexible in that it may be adjusted to fit the applicant's skills or experience. Please note all additional experience and skills on the application and resume.
