RCI Engineering Employment Opportunity

RCI Engineering is a manufacturer of agricultural and off-road equipment, specializing in product development, testing, and manufacturing of products as an OEM and as a supplier to other companies.

Three areas of focus include the following:

1. Complete engineering services for agricultural and off-road equipment manufacturers
2. Research Plot Harvesters for hay, forage, and biomass crops
3. Attachments and Implements for Commercial Hay and Forage Harvesting

Apprentice

RCI is looking for a High School Student to join the team as an apprentice. This is an entry level position that aims to provide a general overall experience in manufacturing and engineering to encourage the applicant to pursue a career in some form of engineering or manufacturing.

Responsibilities:

- Assist in any area of production where needed, from welding to final assembly.
- Cleaning of production areas to assist other associates in performing their work.
- Repairs and cleaning of agricultural equipment and truck fleet.
- Special projects to be assigned where apprentice takes the lead in activities such as testing, test stand builds, or other work.

Requirements:

- Actively enrolled in a local high school and involved in either tech ed or agricultural education
- Available to work part time around school hours
- Available to work during school shut down days
- A basic understanding of agricultural equipment and/or motor vehicles

Benefits

- This is a part-time position that currently features no extra benefits.
- This position may transition to a full-time position over time (post-graduation) that would include benefits.

Additional Information

- This position is flexible in that it may be adjusted to fit the applicant's skills or experience. Please note all additional experience and skills on the application and resume.
